

FOR ALL YOUR PAD PRINTING NEEDS

# Pad Printing

## Consumables

With over 35 years in the pad printing industry, Comdec/SMI understands the challenges involved in running daily production.

Let our expertise become your expertise. Our customers receive the kind of support that can only be delivered from a company with “real world experience.”

Regardless of what type of pad printing equipment you have (from us or another manufacturer), our knowledgeable staff can help you produce quality product efficiently. We can help you choose the correct pad, ink and cliché, as well as develop and manufacture tooling specific to your application.

### Printing Pads

- Over 1000 designs available
- Manufactured using only the highest quality materials
- Custom designed for your unique application or a duplication of your existing design

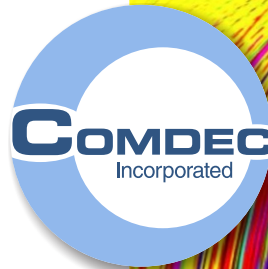

### Ceramic Rings and Holders

- Rings available from 60mm to 180mm and Imtran 3.5” and 5”
- Our unique adjustable magnet holder will fit most pad printers

### Printing Clichés

- Water or Alcohol Wash
- Laser Engravable
- Etched Steel
